

Oh Beloved Prophet

O beloved prophet your guidings are for both the world and Islam

You are the one who will intercede for us and protect us

O mercy for the worlds

O beloved prophet your guidings are for both the world and Islam

No one was like you and nor will there be anyone like you

O mercy for the worlds

O beloved prophet your guidings are for both the world and Islam

O prophet (saviour)!

Anyone who comes to your doorstep gets more than he desired, he never comes back empty-handed

Those Jaliyon's beauty is indescribable, look at us also and grant us a bit of your blessings

O beloved prophet your guidings are for both the world and Islam

You are the one who will intercede for us and protect us

O mercy for the worlds

O beloved prophet your guidings are for both the world and Islam

No one was like you and nor will there be anyone like you

O mercy for the worlds

O beloved prophet your guidings are for both the world and Islam

O prophet (saviour)!

Morning breeze, carry my message and ask the prophet to tell me a cure for my heart's pain

I am immensely in love with you, that I have become ill, when you are happy with me and give your love to me, only then will I become well again

O beloved prophet your guidings are for both the world and Islam

You are the one who will intercede for us and protect us

O mercy for the worlds

O beloved prophet your guidings are for both the world and Islam

No one was like you and nor will there be anyone like you

O mercy for the worlds

O beloved prophet your guidings are for both the world and Islam

O prophet (saviour)!

Look inside my heart o prophet and change me, for I am standing at your doorstep

Make me stay in your love and think about you day and night, only this is my dua (prayer)

O beloved prophet your guidings are for both the world and Islam

You are the one who will intercede for us and protect us

O mercy for the worlds

O beloved prophet your guidings are for both the world and Islam

No one was like you and nor will there be anyone like you³⁵

O mercy for the worlds
